And Seeking Material Information!

State of Florida) Re: Case No.: 90-5417 of 10B,
) ss. " " : 90-13414 of 10B,
County of Union) Civil #: 07-30304 (05)

I, Lancelot U. Armstrong, acting in legal form do hereby swear that the following material statement is true and made of my own free will, from my own personal knowledge:

In Jamaica, I once work as civil servant. Most of my jobs was government work, etc. what made matters worst, here in the U.S. I bringing few law enforcement misconduct to Honorable Judge: Michael L. Gates, Attention. which some urgent protective issues was ignored, resulted, retaliative bad actors continuously broken many constitutional laws, even with the advise from the state prosecution team. To further interfered with pending issues within the court, Sheriff's Deputies called Judge Gates, to knowingly mislead the court, on illegally block due process, contrary to my legal rights to exhausting

All Administrative remedies before entry to the court civil relief. Said Sheriff's officials in Broward county causation of the court ignored most of my Bona fide legality issues.

The Court once told me on few pro-se. Petitions proceedings that the Court did not wanted to dictated how the Sheriff's run his institutions, which allowed those bad actors to continue circumvented my genuine legal remedies at times. few times the said Honorable Judge: Michael L. Grates, changes his orders to pleased those Sheriff's Deputies cover-up.

under oath I declared that I once work in Law enforcement to stop Corruption in election time in Jamaica. I did not know one of my Attorney find out about that fact, by the officer of the court bringing up that truthful fact, I swear to it. many witnesses known about that material fact. resulted, of my age the Judge: ignored the Truth by stated He does not believe because of my age.

"The was Swear document in Jamaica and finger print that I once work through Falmouth Police Station, I received a pay check, I paid Tax." many co-worker, and others have knowledge that said above fact," which can obtain to prove to the court that my spiritual believe, that I would not lie to the court, especially under oath. few officials once told me Those state's

Violators untouchable. The Court allowed those bad practice to increased, by taken those bad actors words, over my material evidences. I always believe those who chosed to swear comply with their constitutional duty, when they Broken that Trust under color of State Law, the court should not give those violaters a free pass, cause they deliberately chosed not to accommodated my legal rights, they study the Laws, or should know better.

I was holding them at a higher standard,

The fact that I always struggled with dyslexia which impairment of the ability to read properly, yet! I was able to strive above my limitation causation of increase skills allowed me to done Civil Servant Jobs in Jamaica, few high level Politician was my Boss.

AS a genuine spirit mind set, person, it help me to faithfully seek and obtained work in "public works," and for "ministry of Agriculture", After I obtained a better Government Job, working at Rafting on the Martha Brae River, which was under the Jamaican Tourist board. I received increased status with extra jobs at Rafting, which I was given time off in order to work for Falmouth Police Station, which is in "Trelawny, Jamaica, W.I." I believe the Telephone #. is (876) 954-3223, Some of my School mates goes into the service as well. my issue now, is anyone who have knowledge of said material fact, may contact me at the following info. www.lancelot-armstrong.de - Blog: Lancelot-armstrong.wordpress.com

Because some years ago, I obtained few private investigators, and private attorneys to get legal evidences concerns some of what I happened to stated above. They got some limited factual info. Some advised me many official records was destroy in a storm. "As a lay person, I know many record on some historical document, such as those checks I received, and those tax I paid. " Bank record. and few log books. and other form of historian insight can reflect on some information that I need for cases in the U.S.A. State of Florida. Some of my former co-workers still around, especially when I was abused by said Falmouth police officials to give info. on some people which I did not know, resulted, I was charged and sent to Gun Court in Kingston.

official & Attorney Headley Cunningham from Montego Bay St. James, handle my case, I win my case, on made a genuine promise to my Grandmother, which most people call her mother weir, she was very spiritual teacher.

I proceed with said promise to marry and help others no matter what happening in order to change there negative ways. My friends was mostly woman, and people in high places, etc. Those misinformation the state of Florida put into the media against me, cause most people to hesitated from speaking up for my best interest.

In the early 1980's I leave Jamaica, on move

to Boston, mass. in the U.S.A. Always working as a Builder, mostly in Building Maintenance and Remodeling. my Apartment was later distroy by fire. I lost every material item I once own, I still able to grow, even in 1985, I got into Trouble with a incident which Rose friend told her family the we was playing around. I learn both her mother abused treatment to forced her to say what happen, or did not happen. Especially the Law does not see eye to eye on some issues, the case was seal causation of Rose was 14 years old, I was 21 years old. She stated that I did not Rape her back then,

"Now, the State of Florida prosecution team illegally obtained said seal information on given to Florida media which further prejudiced my cases. which the out a state seal case does not have anything to do with this wrongful Robbery and murder that depriving my life, and rights. I lost my house, Business, my childrew grow up, which interfered with what I was Building for my childrew, and grand childrew.

Learning how flaw this legal system scheme proceed against my protective rights, cause me to putting some truthful material fact out there so people could speck up before we die. many bias problems never reform within the legal system. they used contrary practices to gain both ways, on failure to correct the record, and allow meaningful remedy.

Respectfully Submitted:
